40 CFR 60 Subpart OOOOa - Notification of Actual Date of Initial Startup

Dear Sir or Madam:

DCP Operating Company, LP (DCP), pursuant to the requirements of 40 CFR 60.7(a)(3) and 60.5420(a)(1), is providing notification that initial startup for fugitive emission components subject to 40 CFR 60 Subpart OOOOa at Goliad Gas Plant occurred on December 14, 2017. Specifically, DCP completed a physical change to the Goliad Gas Plant that increased the number of components in VOC service as defined in 40 CFR 60 Subpart OOOOa. Based on this increase in the number of components, DCP determined that this project should be considered a modification as specified in 40 CFR 60.14 and, as such, DCP submitted a notification of modification on July 18, 2016. Please note that the Leak Detection and Repair (LDAR) program at Goliad Gas Plant has historically complied with 40 CFR 60 Subpart OOOO.

If you should have any questions, please contact me at (361) 584-8515 or via email at [cckotrlik@dcpmidstream.com](mailto:cckotrlik@dcpmidstream.com).

Sincerely,  
**DCP Operating Company, LP**

Chris Kotrlik  
Sr. Environmental Specialist
